Den Hartog Industries

Today Den Hartog Industries' four divisions - Ace Roto-Mold, Blow Molding, Injection Molding and Sowjoy - employ over 300 people in facilities in excess of 365,000 square feet. The company-owned fleet of trucks distributes products nation wide and into Canada. The company continues to expand its product offerings and widen its distribution network each year. Den Hartog Industries, Inc. will always be committed to serving its customers and community by being *"Always At Your Service."*

CUSTOM INJECTION MOLDING

Den Hartog
 INDUSTRIES, INC.

Den Hartog Industries

Precision and strength are just two reasons that injection molded products are one of the fastest growing segments of the plastics industry. If you can imagine it, Den Hartog Industries can manufacture it through injection molding - in countless shapes, sizes and colors. From agricultural to pharmaceutical, from industrial to consumer, Den Hartog Industries is producing quality products that are shaping the future.

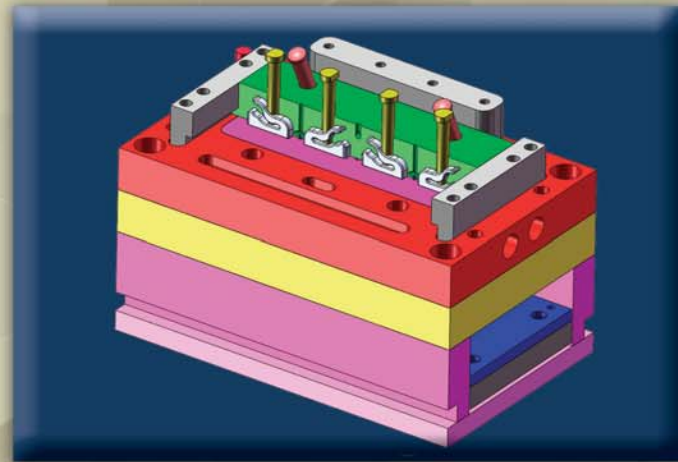

IF YOU CAN IMAGINE IT,
WE CAN MANUFACTURE IT.

◀ DHI uses the latest in molding **technology and equipment**, operated by well-trained employees who take pride in their work.

◀ Our machine capacity ranges from **85 to 610 tons**.

YOUR CONCEPT AND DESIGN

◀ DHI will help review your **initial design and concept**. Using the latest software allows us to develop design proposals for your review.

DHI can assist in material selection and prototyping.

▲ Our **in-house tooling capabilities** ensure that your timelines are met and that future requirements, such as revisions or repairs are met with quick response.

◀ DHI will consult you throughout the **development process** to ensure that your objectives are met.

SECONDARY SERVICES

▲ Ask us about **decorating, stamping, packaging and assembly** to put the finishing touches on your project.
