PRODUCT RELEASE

DW3000-102 Double Wall Vertical Tank

Product is a freestanding double wall vertical tank with a flat bottom for indoor or outdoor, stationary applications. Double wall construction provides containment in the event the inner or primary tank is compromised. An EPDM elastic seal is standard and seals the primary tank to the secondary tank to prevent dirt and moisture from entering the containment space between tanks.

FEATURES:

- Furnished with a 16" vented lid assembly as standard.
- Three fitting flats are provided on the top for custom tank plumbing
- Tanks manufactured from high density polyethylene with U.V. stabilizers.
- Standard colors are white, yellow, and black.
- Designed for the containment of all chemicals rated for contact with polyethylene. Standard weight tank is designed for chemicals with a specific gravity of 1.7. Consult the Application Guideline Manual for known compatible chemicals and service temperatures. FDA compliant materials are available.

SPECIFICATIONS:

Overall Dimensions: 102" Diameter x 141" Tall

Shipping Weight : 1512 lbs.
