Ace Roto-Mold

New Product Release

NEW Full Drain Inductor Line – 47" Diameter

Den Hartog Industries is excited to introduce our NEW Full Drain Inductor Tank Line featuring a 47" diameter and 30° cone bottom design. The new line is available in 150 and 200-gallon capacities, providing versatile solutions for a variety of mixing and handling applications. Designed for indoor or outdoor stationary and transportable use, these tanks feature a full-drain outlet with 2" male NPT threads, allowing for complete product evacuation while minimizing waste and simplifying cleanout. Tank does require use of a stand.

Part No.	Description	Weight	Part Dimensions
INFD150-47	150 Gallon Full Drain	58	47 x 36
INFD200-47	200 Gallon Full Drain	66	47 x 42
INFD47-30ST	IN STAND 47” Dia 30 Deg	71	36 x 36 x 33

FEATURES for the Inductor Tank Line:
