NEW PRODUCT RELEASE

FM1310-62 Full Drain Leg Tank

New product is a 1310 gallon tank with legs for indoor or outdoor, stationary or transportable applications. Tank must be installed using 3 hoops securely anchoring the tank to skid. Skid is required on tank because of sloped sump options. Poly baffles are included for fluid control. Tank features full drain-out sump options to center or one end. Tank shown with hoops and skid.

FEATURES:

- Manufactured from high-density polyethylene with U.V. stabilizers.
- Standard colors are White, Yellow and Black.
- 16" vented lid assembly and lanyard are standard equipment.
- 2" FPT polypropylene fitting with santoprene gasket is standard.
- Tank is designed for the containment of all chemicals rated for polyethylene.
- Standard weight tank is designed for chemicals with specific gravity of 1.7.
- The required hoop and skid kits are manufactured from mild steel and feature a black powder coated finish.

SPECIFICATIONS:

Dimensions: 69" wide x 114" long x 74" tall with skid

Weight of tank and baffles is 450 lbs.

Weight of hoop kit option is 80 lbs.

Weight of skid is 455 lbs.
