

Ace Roto-Mold

July 2018

NEW PRODUCT RELEASE

500 Gallon Slim-Line Utility Tank SP0500-UT

Den Hartog Industries, manufacturer of the ACE Roto-Mold Tanks announcing the addition of a new capacity of Slim-Line Utility Tanks to our product offering. The new **500** gallon model will be added to the current offerings of 250 gallon, 300 gallon, 400 gallon and 750 gallon, with a new rounded design for easy handling and placement. Designed for commercial or residential installations where a narrow designed tank is needed, able to fit through most doorways. Most commonly used for water storage where applications for drinking, irrigation, fire protection, or gardening may be needed.

500 Gallon
