June 2018

**NEW**

## PRODUCT RELEASE

# 750 Gallon Slim-Line Utility Tank

## SP0750-UT

Den Hartog Industries, manufacturer of the ACE Roto-Mold Tanks announcing the addition of a new capacity of Slim-Line Utility Tanks to our product offering. The new **750** gallon model will be added to the current offerings of 250 gallon, 300 gallon and 400 gallon, with a new rounded design for easy handling and placement. Designed for commercial or residential installations where a narrow designed tank is needed, able to fit through most doorways. Most commonly used for water storage where applications for drinking, irrigation, fire protection, or gardening may be needed.

**750 Gallon**  
SP0750-UT
