NEW **PRODUCT RELEASE**

55 GALLON HORIZONTAL LEG TANK

FS0055-23

The 55 gallon horizontal leg tank is a freestanding horizontal tank with two legs for indoor or outdoor use, stationary or transportable applications. Two hoop band recesses are provided around the tank to facilitate anchoring. Gallon / Liter indicators are included on the end and side of the tank. Tank features end sumps on each end for fitting location. A centered side sump is also furnished.

55 GALLON HORIZONTAL LEG TANK

FS0055-23

SPECIFICATIONS

PRODUCT CONSTRUCTION:

The new 55 gallon horizontal leg tank is manufactured from medium density polyethylene with U.V. stabilizers. Standard colors are WHITE - YELLOW - BLACK.

LID ASSEMBLY:

The 55 gallon tank is equipped with a 5" vented Lid Assembly as standard equipment. Consult your customer service representative for other lid options.

FITTING:

The 55 gallon tank is furnished with a 1" polypropylene fitting with Santoprene gasket as standard equipment. Consult your customer service representative for other fitting options.

PRODUCT USE:

The 55 gallon tank is designed for the containment of all chemicals rated for contact with polyethylene. Tank must be installed with 2 hoop bands and be securely anchored to the tank base or stand. Standard weight tank is designed for chemicals with specific gravity of 1.70. Consult your customer service representative regarding weights for higher specific gravities.

DIMENSIONS:

The 55 gallon horizontal leg tank is 23" wide x 34" long x 27" tall. Shipping weight will be 22 lbs for the standard configured unit described.
