NEW FROM ACE ROTO-MOLD

BLOW-MOLDED SPOT SPRAYER TANKS

## 15-GALLON AND 25-GALLON MODELS

These high-quality, blow molded spot sprayer tanks are now available factory direct to you! The tanks are designed for residential, industrial or agricultural chemical applications. The features allow for easy pump mounting and incorporating as part of sprayer applicator units.

Tanks are manufactured from high-density polyethylene with U.V. stabilizers. All tanks have a low-profile elliptical design with a molded-in drain port and offer full drain out capability.

Ribbed side walls offer additional strength. Liquid level indicators are featured in both U.S. and metric measurements. Optional drain cap and cap tether are available. Tanks are available in natural and yellow colors.

SHAPING THE FUTURE

F E A T U R E S   A N D   B E N E F I T S

- a. 5" lids available:  
 Deluxe model with breather  
 Standard model
